*****Docket # E-01933A-07-0402*****

12/20/07

Customer called to express her Opinion against TEP's proposed rate increase. Customer contends that the CEO of TEP gets paid a huge salary and others within TEP also get paid quite well but despite this TEP seems to be asking for a huge increase which customer believes is unjustified. Customer said she retired 15 years ago as her money is being tied up with all of these increases. Customer purchased a 13 SEER air conditioner a few years ago in an attempt to reduce her summer bills. Customer lives in a town home but said that it is still hard especially during the summer months. TEP should take into consideration the amount of income that the community if Tucson averages to see that TEP rates should not be increased so much.
